

ERUS-EAUN Robotic Urology Nursing Meeting

September 25, 2017

Morning sessions

8.00-8.15

Welcome

Jane Petersson, RNFA, Denmark and Hilde Cammu, Operating Room Nurse, Belgium.

8.15-8.30

Introduction to European Association of urology Nurses (EAUN). EAUN- "now more than ever"

Simon Borg, Specialist Urology Surgery Nurse, Mater Dei Hospital, Malta

Chair: Simon Borg

8.30-9.20

Human Factors in Robotic Surgery, team training and OR efficiency

Dezita Taylor, lecturer in operating department practice, Birmingham City University, UK.

9.20-10.00

Standardizing a European curriculum for nurses working with robotic surgery, a reality or an utopia?

Kate Furbur, Specialist Operating Room Nurse, American Hospital of Paris, France

10.00-10.15

Training and education to become RNFA

Jane Petersson, RNFA, Robotic Nurse Specialist, Aalborg University Hospital, Denmark

10.15-10.30

Coffee break

Lunch sessions

Chair: Jane Petersson
Dezita Taylor

10.30-11.05

Avoiding complications in Robotic Surgery

Dezita Taylor, lecturer in operating department practice, Birmingham City University, UK.

11.05-11.45

Safe positioning and avoiding complications. Results from a study of compartment syndrome after robotic assisted radical cystectomies

Veronica Ramirez, OR-nurse, MSc. Karolinska University Hospital, Sweden

11.45-12.15

Educational Video sessions: 1) Port placement for robotic assisted radical prostatectomy and radical cystectomy; know your anatomy and how to avoid external and internal conflicts. 2) Managing rectal injuries during robotic assisted surgery; what to do when things go wrong

Dr. Erdem Canda, Ankara University Hospital, Turkey

12.15-12.45 Interactive video session: Complications during robotic assisted urology surgery.
What to do when something goes wrong
Dr. Rodolfo Sanchez-Salas, Karolinska University

12.45-13.15 Anaesthesia for patients undergoing robotic surgery - what all OR-nurses and RNFA's should know
Dr. Geert VAndenbroucke, OLV Hospital, Belgium

13.15-14.00 Lunch break

Afternoon sessions

Chair: Harold Omana, RNFA, Robotic Nurse Specialist, Guy's Hospital, UK.

14.00-14.45 Radical prostatectomy: Which patients do we meet in the OR? Latest research on the topic of PSA and diagnosing with fusion biopsies, factors deciding whether the patient will undergo surgery or have optional treatment. Handling postoperative complications
Dr. Markus Aly, Karolinska University Hospital, Sweden

14.45-15.30 Kidney cancer: Diagnosis and treatment. Focus on partial nephrectomy, challenging cases and surgical case
Dr. Ben Challacombe, Guy's Hospital, United Kingdom.

15.30-16.15 Bladder cancer: Diagnosis and treatment. Factors deciding ileal conduit or neobladder. Challenging case. Quality of life after surgery
Dr. Rafael Sanchez-Salas, Institut Mutualiste Montsouris, France

16.15-16.35 Coffee break

Chair: Jane Petersson

16.35-17.00 How to ensure patient ethics and patient safety during Live Surgery - what are the EAU standards?
Dr. Frederick de Hondt, OLV Hospital and OR-nurse Hilde Cammu, OLV Hospital, Belgium

17.00-17.10 Summary
Jane Petersson and Simon Borg
